## FUNDED GRANTS (PI OR CO-I)

1. **Johnson, J. E.** (2005). *Group Treatment for Depression as an Adjunct to Substance Use Treatment in Incarcerated Women with Co-Occurring Depressive and Substance Use Disorders*. Group Psychotherapy Foundation. \$5,000.
2. L30 DA021159 (**Johnson**) 7/1/05-6/30/11 Role: PI  
NIH/NIDA  
*Group IPT for Women Prisoners with Comorbid Substance Use and Depression*.  
National Institutes of Health Loan Repayment Program award.
3. K23 DA021159 (**Johnson**) 4/23/06-12/1/11 Role: PI  
NIH/NIDA \$900,899 (TC)  
*Group IPT for Women Prisoners with Comorbid Substance Use and Depression*  
To develop Dr. Johnson's career as a clinical researcher with a programmatic line of research on interpersonal group treatments for high-risk women with substance use and co-occurring disorders.
4. R34 MH086682 (**Johnson**) 6/1/10 – 2/28/15 Role: PI  
NIH/NIMH \$689,783 (TC)  
*Group IPT for major depression following perinatal loss*  
To adapt group IPT to treat major depressive disorder that occurs following perinatal loss (including miscarriage, stillbirth, and early neonatal death), and to test its feasibility, acceptability, and initial efficacy relative to a standard depression treatment in a sample of 60 women.
5. R34 MH094188 (**Johnson** and Zlotnick) 4/15/11-2/28/15 Role: PI  
NIH/NIMH \$702,335 (TC)  
*HIV/STI risk reduction for incarcerated women with interpersonal violence*  
To integrate strategies for affect management and increased social support/access to community resources into the empirically supported Women's Coop HIV prevention intervention and tailor the integrated intervention for incarcerated women with lifetime interpersonal violence
6. R34 DA030428 (**Johnson** and Zlotnick) 7/1/11 – 6/30/15 Role: PI  
NIH/NIDA \$605,838 (TC)  
*Sober Network IPT for perinatal women with comorbid substance use and depression*  
To adapt IPT for perinatal depression into Sober Network IPT to treat co-occurring substance use disorder and major depressive disorder among pregnant and post-partum women, and to test its feasibility, acceptability, and initial efficacy in a community setting relative to a community treatment as usual in a sample of 50 women
7. R01 MH095230 (**Johnson**) 7/1/11 – 4/30/15 Role: PI  
NIH/NIMH \$1,755,597 (TC)  
*Effectiveness of IPT for men and women prisoners with major depression*  
To conduct the first fully-powered effectiveness study of treatment for major depressive disorder in an incarcerated population. This is a Hybrid Type I effectiveness/implementation study that also examines cost-effectiveness.
8. R01 AA021732 (**Johnson** and Stein) 8/1/13-7/30/18 Role: PI  
NIH/NIAAA \$2,531,680 (TC)  
*AA linkage for alcohol abusing women leaving jail*

To test the effectiveness of an Alcoholics Anonymous (AA) linkage intervention on alcohol use, AA attendance, and HIV sex risk among women with alcohol use disorders leaving jail.

9. R34 MH097987 (Gaudio) 8/1/13-9/30/16 Role: Co-I  
 NIH/NIMH \$667,229 (TC)  
*Effectiveness of psychosocial treatment for inpatients with psychosis*  
 To adapt an empirically supported psychotherapy for acute psychosis to be delivered in a group format by bachelor's level providers to improve implementability and promote uptake in routine inpatient settings. This is a Hybrid Type I effectiveness/implementation study.
10. R34 MH102466 (Weinstock) 5/1/14-4/30/17 Role: Co-I  
 NIH/NIMH \$758,339 (TC)  
*Adjunctive psychotherapy for perinatal bipolar disorder*  
 To develop and pilot test an adjunctive psychosocial intervention to treat perinatal bipolar disorder.
11. R34 MH103570 (Weinstock and Battle) 11/1/14-10/31/17 Role: Co-I  
 NIH/NIMH \$733,749 (TC)  
*Treatment decisions for perinatal bipolar disorder*  
 To identify factors that influence pharmacotherapy and other mental health treatment decisions among perinatal women with bipolar disorder and the processes by which they make these decisions.
12. R21 MH105626 (**Johnson**) 2/19/15-2/18/18 Role: PI  
 NIH/NIMH \$447,752 (TC)  
*Effects of prisoner re-entry context on cognitive ability to manage mental health at re-entry*  
 To examine how the difficult context of re-entry affects women's cognitive processing, priming subsequent poor or impulsive health decisions during the vulnerable re-entry period.
13. R34 DA038770 (Zlotnick) 4/1/15-3/30/18 Role: Co-I  
 NIH/NIDA \$700,000 (TC)  
*Computer-based intervention for battered sheltered women with substance use*  
 To develop and pilot test a computer-based intervention for battered sheltered women with substance use
14. U01 MH106660 (**Johnson** and Weinstock) 10/1/15-9/30/19 Role: PI  
 NIH (NIMH, OBSSR) and NIJ \$6,817,508 (TC)  
*Suicide risk reduction in the year following jail release: the SPIRIT Trial (Suicide Prevention Intervention for at-Risk Individuals in Transition)*  
 The SPIRIT Trial is a randomized controlled trial evaluating the effectiveness, cost-effectiveness, and mechanisms of the Safety Plan intervention in reducing suicide events among 800 individuals in the year after jail release. This application was submitted as an R01, but was converted to a U01 because of its size, visibility, and impact.
15. U54 MD011227 (Furr-Holden) 7/20/16-2/28/21 Role: Co-I\* (until 11/21/16)  
 NIH (NIMHD) \$10,689,313 (TC)  
*The Flint Center for Health Equity Solutions*  
 To establish an NIMHD Transdisciplinary Collaborative Center (TCC) for health disparities research on chronic disease prevention to be based in Flint, Michigan. The TCC will strengthen community-engaged research on multilevel

interventions to target lack of physical activity, unhealthy diet, and substance use. Our initiatives will reduce health inequities in Flint, Michigan and provide promising insights to promote translational approaches across the nation.  
\*Was described in the application as the “Co-PI”

16. U54 MD011227: D-I Core (**Johnson**) 7/20/16-2/28/21 Role: PI (until 11/21/16)  
NIH (NIMHD)  
*The Flint Center for Health Equity Solutions: Dissemination and Implementation Science Core*  
To conduct dissemination and implementation research and research dissemination. The Core will serve as the communication hub of the Center and will contribute to scientific knowledge about how to overcome barriers to the adoption, integration, and sustainment of evidence-based multilevel interventions, particularly those examined in Center research projects.
17. U54 MD011227-P1 (Johnson-Lawrence) 7/20/16-6/30/21  
Role: Co-I (until 11/21/16)  
NIH (NIMHD)  
*Physical health: Public health approaches to prevent and reduce obesity and cardiovascular disease: The “Church Challenge” to create healthier communities*  
This project will (1) examine the effectiveness of a community-designed, community-based, multilevel physical activity and diet intervention (the Church Challenge) relative to enhanced treatment as usual among 770 people in 30 primarily African-American Flint area churches using a randomized controlled trial (RCT) design, randomized by church; (2) conduct longitudinal and process evaluations of promoting church engagement in policy advocacy to improve health land use in Flint; and (3) evaluate church-level and individual-level sustainment of behavior change. This intervention was created by the community churches for the community churches. We are not aware of another faith-involved intervention RCT that has involved a community-policy level or that has used churches to drive change at that policy level.
18. U54 MD011227-P2 (Furr-Holden) 7/20/16-6/30/21 Role: Co-I (until 11/21/16)  
NIH (NIMHD)  
*Behavioral health: Public health approaches to prevent and reduce behavioral health inequalities: The Flint Recovery Crop to promote behavioral health equity and strengthen Flint families*  
This multi-level Hybrid Type III randomized implementation trial will evaluate the effectiveness of a multilevel implementation approach to promote reach, effectiveness, adoption, implementation and maintenance of evidence-based individual, family, and community level substance use interventions to reduce behavioral health disparities in minority communities such as Flint. A total of 32 sites will be selected, who can enroll at least 105 families with substance use over the course of the trial. This will result in an estimated 3,360 families served/enrolled over the project period. Evidence-based substance use interventions being implemented include Peer Recovery Coaching, the Strengthening Families program, and a media campaign.
19. VA grant Shea 12/1/15-11/30/18 Role: Co-I  
*Interpersonal Psychotherapy for Veterans with PTSD*  
To evaluate the efficacy of IPT for PTSD among veterans.  
*Slated for funding by the VA in fall 2015.*
20. R01 MH114883 (**Johnson** and Zlotnick) 1/1/2018 – 12/31/2022 Role: PI  
NIH/NIMH

*Implementing to sustain: Determining the minimum necessary intervention to maintain a postpartum depression prevention program (ROSE) in clinics providing prenatal services to low-income women*

To determine the minimum necessary implementation intervention necessary to sustain ROSE in 90 prenatal clinics serving low-income women in 6 U.S. states (MI, RI, MA, FL, PA, NY)

FUNDED GRANTS: CONSULTANT OR PARTICIPATING FACULTY MEMBER

1. Brown University's Pembroke Center for Teaching and Research on Women (Rich) 7/1/13-6/30/14 \$10,000  
 Role: Core Faculty  
*Incarceration, disparities, and health in America in the age of healthcare reform*  
 To foster interdisciplinary collaboration among faculty and dissemination of research relating to re-entry of women prisoners
2. R25 DA037190 (Beckwith) 5/1/14 – 3/31/19 Role: Faculty NIH/NIDA  
*Lifespan/Brown Criminal Justice Research Program on Substance Use and HIV*  
 Involvement with the criminal justice system, substance use, and infection with HIV and hepatitis C virus (HCV) are syndemic in the United States. Despite this public health crisis, there is a relative dearth of clinical research aimed at improving treatment outcomes among CJ populations. To address this gap and increase the number and capacity of clinical scientists working with CJ populations, we have established this clinical research training program based at the Lifespan/Tufts/Brown Center for AIDS Research (CFAR) and in collaboration with the Brown Program in Public Health.
3. R25 MH083620 (Flanigan) 7/17/08-6/30/19 Role: Faculty NIH/NIMH  
*The Brown Initiative in HIV and AIDS Clinical Research for Minority Communities*  
 To train the next generation of minority researchers to address the challenges of prevention, diagnosis and treatment of HIV, particularly in minority (especially African-American) communities. This proposal includes a stronger focus on community-engaged research. We aim to train the next cadre of investigators to conduct interdisciplinary research that responds to the social, behavioral and structural factors that contribute to racial disparities in HIV infection in the most heavily impacted communities of the US, particularly in the South and in inner city settings.
4. R25 MH101076 (Eisen) 9/6/13-6/30/18 Role: Faculty NIH/NIMH  
*Promoting Research Training During Psychiatry Residency*  
 To train psychiatry residents to conduct high-quality cutting-edge research, develop outstanding scientific expertise, sustain life-long engagement in research, and have successful careers as research-oriented physician-scientists in psychiatry/neuroscience.
5. Private donor (Brockmann) 10/1/14-12/30/15. Role: Consultant  
*Awaiting trial population service linkage and re-entry project*  
 To evaluate the feasibility and initial effectiveness of placing service linkage navigators within jails to promote linkage to and attendance at needed service appointments after jail release
6. U01 CE002531 (Orchowski) 9/30/14-9/29/18 Role: Consultant

CDC/NCIPC

*Preventing sexual aggression among high school boys*

To conduct a randomized controlled trial with a sample of 1200 10th grade boys to demonstrate efficacy of each intervention in reducing rates of sexual aggression, dating violence involvement, and related risk/protective factors over a 6-month follow-up relative to a dose- and attention-matched General Health Promotion control group.

GRANTS UNDER REVIEW

1. R25 HL140319 Neighbors (submitted 2/16/17, RS 9/26/17)  
Role: Faculty member  
*Research to Reduce Disparities in Disease (R2D2)* \$1,378,954 TC  
To create a two-summer, developmental research program that combines the best of medicine and public health. This program expands the “hands-on” research skills of medical students enrolled in the Michigan State University College of Human Medicine (MSU-CHM) and will train students to conduct community-based translational research on health disparities. The mission of this program is to create a research education program that will make MSU-CHM medical students more competitive for research-oriented residency programs and address health disparities in medically under-served communities.  
*Impact score of 14. Funding pending.*
2. R34 DAXXXXXX (Holmstrom, submitted 2/16/17, RS 11/2017)  
Role: Co-I  
*Community Reinforcement and Family Training for Re-entry: Engaging concerned significant others for sober support for re-entering incarcerated individuals with a history of substance abuse disorder*  
The proposed study adapts Community Reinforcement and Family Training (CRAFT) to create CRAFT for Re-entry (CRAFT-R), a behavioral intervention to reduce substance use and promote SUD treatment engagement among individuals who are re-entering the community on parole or probation by teaching key network members skills for reinforcing sobriety and SUD treatment engagement.
3. R34 MHXXXXXX (Gaudiano and Moitra, submitted 2/16/17, RS 11/2017)  
Role: Co-I  
*Mobile aftercare support intervention for patients with schizophrenia following hospitalization*  
To develop and examine the feasibility, acceptability, and potential effectiveness of our newly-designed Mobile After-Care Support (MACS) intervention to improve adherence and coping following hospitalization for psychosis
4. R34 DAXXXXXX Uebelacker and Stein (submitted 10/15/15, RS 2/15/17)  
Role: Consultant (for participatory research)  
*Changing opioid users’ negative attitudes toward medication assisted treatment*  
To develop and test a narrative-based video intervention to help patients undergoing inpatient opioid detoxification make decisions about the use of maintenance medication-assisted treatment (MAT) after discharge.
5. P50 MHXXXXXX **Johnson** (submitted 5/17/17) 3/1/18-2/28/22  
Role: PI  
NIH/NIMH \$6,209,707 TC  
*Accelerating the reach and impact of mental health services for justice-involved individuals: The Michigan Mental Health and Justice Center*  
This application develops an Advanced Laboratory for Accelerating the Reach

and Impact of Treatments for Youth and Adults with Mental Illness (ALACRITY) P50 Research Center. Located in Michigan, the goal of the Michigan Mental Health and Justice Center is to accelerate the pace of transdisciplinary research to solve systemic barriers to adequate mental health care and service linkage for justice-involved individuals with mental illness nationally, especially those with serious mental illness (SMI) and those at risk for suicide. With significant near-term impact, this work has the potential to reduce morbidity, mortality, and suffering due to mental health conditions for millions of the U.S.'s most vulnerable.

*To be resubmitted in May 2018*

Role: Co-I

NIH/NIMH

\$1,997,554 TC

*Michigan Mental Health and Justice Center: Methods Core*

The Methods Core of the Michigan Mental Health and Justice Center has responsibility for facilitating the development and operational support for Center research projects, including those projects proposed initially and those that will be approved and funded later, generating innovations and their dissemination, and evaluating Center progress toward its goal. The core ties together Center projects and external Consortium Partners to incubate innovative approaches and accelerate the pace of transdisciplinary science to solve intractable mental health problems.

*To be resubmitted in May 2018*

7. P50 MHXXXXXX: Project 1 Kubiak (submitted 5/17/17) 3/1/18-2/28/22

Role: Co-I

NIH/NIMH

\$774,326 TC

*Michigan Mental Health and Justice Center Project 1: Using data linkage to find and intervene with individuals with mental illness in jails and courts*

This project evaluates the accuracy, feasibility, acceptability, uptake, and utility of a real-time data linkage platform to provide notification to community mental health clinicians when their clients are booked into or released from jail or receive a pending court date, along with clinician instructions for how to promote service linkage. Better coordination of care between jails/courts and community mental health can reduce psychiatric decompensation following arrest, reduce preventable suicide and medication-related deaths, and increase compliance with court-ordered conditions (including orders to appear), lessening additional justice involvement.

*To be resubmitted in May 2018*

8. P50 MHXXXXXX: Project 2 **Johnson** (submitted 5/17/17) 3/1/18-2/28/22

Role: PI

NIH/NIMH

\$633,992 TC

*Michigan Mental Health and Justice Center Project 2: Promoting mental health evidence-based practices in a public safety context*

This project examines messaging as an implementation strategy (i.e., messaging is the intervention) to increase understanding of the justice system as a mental health service system by criminal justice administrators, policy-makers, and the public (the mechanism), in order to increase adoption and support of mental health evidence-based practices in justice settings (outcomes).

*To be resubmitted in May 2018*

9. P50 MHXXXXXX: Project 3 Neighbors (submitted 5/17/17) 3/1/18-2/28/22  
 Role: Co-I  
 NIH/NIMH \$1,130,337 TC  
*Michigan Mental Health and Justice Center Project 3: Suicide prevention and service linkage needs of justice-involved Black men*  
 With nearly 11 million admissions per year, U.S. jails serve as a catchment area for individuals at high risk for suicide and provide an important opportunity for suicide prevention. One in three Black men will be incarcerated in their lifetimes. The study identifies mechanisms of racial disparities in suicide risk and mental health treatment-seeking in order to optimize suicide prevention strategies for justice-involved Black men.  
*To be resubmitted in May 2018*
10. R34 MHXXXXXX Weinstock (submitted 10/12/17) 7/1/18-6/30/21  
 Role: Co-I  
 NIH/NIMH \$750,000 TC  
*Integrated Treatment Adherence Program for Bipolar Disorder at the Time of Prison Release*  
 To develop and establish the feasibility, acceptability, and potential for future uptake of CARE (Community treatment Adherence at Re-Entry), an innovative, moderate intensity intervention to promote treatment engagement and improve clinical outcomes for prisoners with bipolar disorder re-entering the community from prison.
11. R01 MHXXXXXX Wittenborn (submitted 10/5/2017) 8/1/18-7/31/23  
 Role: Co-I  
 NIH/NIMH  
*Personalizing treatment for depression through systems modeling*  
 This project will test a novel method of personalizing care for depressed patients through algorithm-guided treatment using system dynamics simulation method and recommender system techniques.
12. R21 NCXXXXXX Meghea (submitted 10/17/2017) 8/1/18-7/31/20  
 Role: Co-I  
 NIH/NCI  
*Mobile health smoking cessation intervention for socioeconomically disadvantaged pregnant women*  
 To develop and test a scalable, mobile smoking cessation intervention for pregnant women on Medicaid.
13. R01 MHXXXXXX Taxman & Johnson (submitted 2/18) 12/1/18-11/30/22  
 Role: PI  
 NIH/NIMH  
*Evaluation of Stepping Up efforts to improve mental health services and justice utilization*  
 To identify strategies to overcome barriers to dissemination and implementation of evidence based behavioral health practices created by a tension between public safety and public health missions in criminal justice settings.
14. UG3/UH3 UCA233240A Lucas (submitted 1/2018) 9/1/18-8/31/23  
 Role: Co-I \$5,148,187 (TC)
